Summary

BTech 4th Year Student | Full Stack Developer (MERN/Next.js)

Aspiring full stack developer with hands-on experience in building dynamic, responsive, and user-friendly web applications. Proficient in both front-end and back-end development, with strong problem-solving skills and a focus on delivering efficient, scalable solutions.

- Front-end:** React.js, Next.js, TypeScript, Tailwind CSS, ShadCN UI, responsive design, UI/UX development, dark and light mode implementations.
- Back-end:** Node.js, Express.js, MongoDB, RESTful APIs, JWT-based authentication, NextAuth for secure login.
- API Integrations:** IMDb API, ExerciseDB API, Cloudinary for image storage and processing.
- Other:** Version control (Git), project management, freelancing experience, working with real-time data and API integration.

Experience

Upwork

Freelancer

Remote

- Engaged in freelance projects to develop technical skills and gain experience in managing diverse web development assignments.
- Successfully completed two projects, demonstrating ability to deliver customized solutions and meet client requirements.

MIVS

Full Stack Developer Intern

Remote

01/11/2024-Present

- Collaborated with cross-functional teams to design and implement scalable backend APIs with Express.js and MongoDB.
- Optimized frontend performance using React and Tailwind CSS to enhance user experience.
- Integrated third-party APIs and implemented secure authentication mechanisms using JWT.
- Participated in code reviews, debugging, and performance optimizations to ensure high-quality deliverables.

Education

Rani Laxmi Bai Memorial School	Rani Laxmi Bai Memorial School	JSS Academy of Technical
Science Maths Computer	Physics Chemistry Maths Computer	Institution,Noida
91.2%	94%	Computer Science
Highschool	Intermediate	B.Tech
2017-2018	2019-2020	Dec 2021-March 2025

Projects

Job Portal

Tech Stack: - MERN, TailwindCSS, ShadCN UI, Redux Toolkit,Cloudinary

- Developed a job portal featuring dual login functionality for both admin and student users.
- Enabled students to browse and apply for job listings, while allowing admins to post new job opportunities.
- Implemented advanced authentication processes using JWT, including email verification, to ensure secure access for all users

Anonymous Messaging

Tech Stack: - NextJS, TypeScript, NextAuth, ShadCN UI, TailwindCSS

- Developed an anonymous messaging platform using Next.js and MongoDB, focusing on user privacy and security.
- Integrated secure user authentication with JWT and NextAuth for seamless login and registration.
- Employed ShadCN UI to create a polished user interface, enhancing overall user experience.

We Go GYM

Tech Stack: -ReactJS, Rapid API, MIUI/Material Library

- Developed a responsive exercise platform utilizing the MIUI/Material library for a modern look and feel.
- Enabled users to search for exercises, access detailed workout information, and explore various workout categories.
- Implemented smooth routing for seamless navigation across different sections of the website.

Cinemate

Tech Stack: - ReactJS, IMDB API, TailwindCSS

- Developed a responsive movie discovery platform featuring both dark and light theme options for enhanced user experience.
- Integrated the IMDb API to enable users to search for movies and access detailed descriptions and ratings.
- Prioritized a user-friendly interface to ensure a seamless browsing experience across the application.

Skills

NodeJS	Express JS	React JS
Next JS	MongoDB	Tailwind CSS
ShadCN UI	RESTful APIs	Cloudinary
DSA	C/C++	Python

Certifications

Upwork Skill Certification - Node.js Full Stack Development

Upwork

October 2024

Certified talent demonstrate proficiency in JavaScript fundamentals such as data types, expressions, arrays, indexed collections, and prototype-based object-oriented programming. They also show an understanding of Node.js concepts such as streams, I/O, events, asynchronous programming, and more. To prove their skills, talent must achieve a passing score on a manually reviewed technical test.
